# Ha Long Cruise Checklist

## PASSPORT

Can't stress enough how important your passport is. Be sure to put it in your bag now!

## SMALL TRAVEL BAG OR BACKPACK

It's time to choose your optimal travel bag! All amenities such as towels and bathroom products are all supplied on a Halong Hub cruise. With so little to bring, we recommend you pack a small-sized bag or suitcase. Most guests leave large items at their hotel in Hanoi or Haiphong for when they return.

## APPROPRIATE CLOTHING AND FOOTWEAR

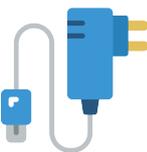

A good pair of shoes will ensure your safety and comfort when exploring, caves, fishing villages, and lagoons. While flip flops are also essential, consider bringing some sturdy shoes that you don't mind getting wet.

## ELECTRIC TRAVEL ADAPTER

Different countries have different plugs and outlets, so it's best to bring your own adapters to still be able to use electric devices. Vietnam uses an electricity supply of 220 Volts/Frequency 50Hz.

*The picture shows the most common plug types and outlets in Vietnam. If the plugs have 3 pins, make sure you buy an adapter.*

## BACKUP BATTERY, CABLES, AND CHARGERS

Though the boat has plenty of charging outlets, it's always best to bring a backup battery and the necessary charging cables and plugs.

## SOME CASH

Although you will make full payment at the end of the trip, it's still important to bring some cash. You might need to buy some souvenirs for your beloved family and friends, or simply show your generosity to the lovely staff.

# Ha Long Cruise Checklist

## INSECT REPELLENT

You're going to be exploring nature. Attracting insects with your irresistible body odor is inevitable. Bug spray is quite handy in tropical Southeast Asia!

## SUNSCREEN AND SUNGLASSES

Sunscreen is quite expensive in Vietnam. Our top tip: be sure to bring some from your home country. During summer, the UV index can be quite high, remember to reapply sunscreen every few hours and after exposure to water.

## MEDICINE

Basic medicine like painkillers and first aid kits will be onboard, of course. However, if you have special medical conditions, remember to bring along enough medicine for the trip as it's impossible to buy specialized medicines onboard.

## ENTERTAINMENT

Books: Immersing in the nature of Halong Bay, you might want to spend your downtime in tranquility. With a glass of fresh juice and a book you love, what else do you need?

Games: Spending time playing cards with your family can really be a lot of fun when you "disconnect to reconnect". Plus, bringing traditional games on the boat is a great way to make friends and earn some memories!
